SYMPTOMS OF PARESIS.

(CONSUMPTION OF THE BRAIN.)

Restlessness, a feverish feeling, sleeplessness, periodic headaches, dizziness, dimness of vision, ringing in the ears, difficulty in thinking, trouble in remembering names and the faces even of friends. The victim of Paresis is often shocked or annoyed by little noises and trifling things. The nervous system is often in such condition that very slight causes, or even no cause at all, may excite to sudden outbursts of anger. A feeling of pressure upon the brain is frequently followed by sensons of despondency, mental depression alternating with periods of wild, illusive hopes. When the brain begins to consume or decay, many of these symptoms become aggravated. The world seems strange or different from what it was in the past, thought becomes a positive effort and life an

Too often the victim of this great modern disease seeks to overcome these symptoms by stimulants. Nothing could be more injurious. The system needs soothing, toning and building up. Something unusual is demanded. And here is where the great difficulty has always been-tofind something pure and yet positive in its results. The late Prof. Phelps, of Partmouth College realized this when he began his investigation which resulted in the discovery of Paine's Celery Compound. He knew men and women required some thing heretofore unknown to the world, and his great discovery has furnished it. This compound checks Paresis, even after it has secured a foothold in the system. Taken on the approach of the first symptoms, it will positively prevent their increase. Its high indorsements by the medical fraternity and the cures it is effecting easily account for its wonderful popularity and the unusual stir it has caused in this community.

Neuralgia causes much Insanity.

The highest medical authorities of Europe and America have recently decided that a large percentage of cases of insanity is caused by the exercitating pams of Neuralgia of the head and face. If any member of your family suffers this tormentor, induce them to try Bailard's Snow Liniment. One application will afford immediate relief and you will soon be rid of a dangerous and tormenting disease. Ballard's Snow Liniment is the most penetrating Liniment known. It positively cures Rheumatism, Lame Back Contracted Muscles, Old Sores, Corns, Bunions, etc. It penetrates and opens up the pores, drawing all poisonous matter to the surface, restoring and promoting a natural circulation of the blood through the diseased parts.

A very simple method of inducing sleep in cases of persistent insomnia and one that has succeeded where many drugs have failed, is simply to administer a moderate amount of warm liquid food before the patient goes to bed. This diverts the blood from the brain to the abdominal organs, and takes away the cerebral excitament that precludes sleep.
